Work experience

Occupation or position held: **Software Engineer Intern**

Employer: Opti Systems SRL

Start & End date: July 2024 – December 2024

Main activities and responsibilities:

- **Front-end Development:** Focused on building dynamic and responsive user interfaces with React, optimizing performance and ensuring a smooth user experience across a variety of platforms.
- **Back-end Development:** Developed robust RESTful APIs using Node.js, integrated databases (MongoDB, Firebase, MySQL) and third-party services to create seamless interactions between the front and back-end.
- **Cloud Services:** Utilized **Google Cloud** for hosting and deploying services, ensuring the system's flexibility, scalability, and security, and helping to streamline the development workflow.
- **Website Development:** Contributed to the development and maintenance of the company's website, opti.ro, enhancing its functionality, performance, and overall user interaction.
- **Agile Collaboration:** Worked collaboratively in Agile sprints with a multi-disciplinary team, ensuring timely delivery of high-quality software solutions.
- **Code Quality:** Committed to writing clean, efficient code, utilizing Git for version control, and writing unit tests using Jest to ensure high code quality.
- **Cross-functional Work:** Worked closely with stakeholders to align business requirements with technical solutions, ensuring timely and efficient project delivery.

Occupation or position held: **Software Engineer Intern**

Employer: **FMS IT SRL**

Start & End date: **July 2023 – December 2023**

Main activities and responsibilities:

- **Front-end Development:** Conceived and developed interactive user interfaces, ensuring smooth integration with backend systems to create cohesive full-stack web applications.
- **Back-end Development:** Integrated backend APIs and services to build scalable, efficient solutions that support seamless functionality across the application.
- **Agile Collaboration:** Worked in an Agile environment, collaborating closely with product managers, designers, and other engineers to meet project goals on time while ensuring the software met the highest quality standards.
- **Code Quality:** Emphasized best practices for clean, maintainable code, utilizing Git for version control and applying Agile methodologies throughout development.
- **Stakeholder Engagement:** Worked closely with stakeholders to ensure that the software was tailored to meet business needs, supporting timely project delivery and smooth functionality.

Occupation or position held: **Intern**

Employer: **Ministry of Economy, Entrepreneurship, and Tourism**

Start & End date: **March 2023 – June 2023**

Main activities and responsibilities:

- **Data Analysis:** Responsible for interpreting and analyzing data related to entrepreneurship and tourism in Romania, generating insightful statistics and analytical reports to support strategic decision-making.
 - **Research:** Conducted data-driven research to identify key trends and opportunities in the tourism and entrepreneurship sectors.
 - **Cross-Department Collaboration:** Collaborated with various departments to ensure accurate and up-to-date data collection and analysis.
 - **Impact Assessment:** Monitored and evaluated the impact of national strategies on the entrepreneurship and tourism sectors.
 - **Policy Development:** Contributed to the development of recommendations for improving policies to foster growth in tourism and entrepreneurship.
 - **Event Support:** Supported the organization of conferences and events to promote entrepreneurial initiatives and tourism development.
-

Education and training

Degree: Bachelor's Degree in Computer Science

School: Bucharest University of Economic Studies, Faculty of Economic Cybernetics,
Statistics and Computer Science

Start / End date: 2022 – 2025

City / Country: Bucharest - Romania

Language skills

Native language: Romanian

Other language(s): English (C2 - Proficient user)

Technical skills

- **Front-end Development:** React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design
 - **Back-end Development:** Node.js, Express.js, RESTful APIs, Authentication (JWT, OAuth)
 - **Databases:** MongoDB, Firebase, MySQL, PostgreSQL
 - **Cloud Services:** Google Cloud
 - **Version Control:** Git, GitHub
 - **Testing:** Jest, Unit Testing
 - **Containerization & Deployment:** Docker
 - **Development Tools:** Visual Studio Code, npm
 - **Methodologies:** Agile (Scrum)
 - **Collaboration Tools:** Jira
 - **Other:** Data Analysis, Research, Report Generation
-

Soft skills

- Strong **Problem-Solving** and **Critical Thinking** skills for addressing software development challenges.
 - Exceptional **Communication** and **Teamwork** abilities, fostering productive collaboration with stakeholders.
 - Highly **Organized** with a keen ability to manage multiple tasks and priorities effectively.
 - Adaptable and **Flexible**, thriving in dynamic environments.
-
